PROFESSIONAL SUMMARY

Enthusiastic and adaptable BCA graduate with knowledge of software development, programming, and business applications. Equipped with practical exposure to JavaScript, React, Node.js, Python, SQL, and MongoDB through academic projects. A proactive learner with strong communication, analytical, and organizational skills, capable of adapting to dynamic work environments.

TECHNICAL SKILLS

PROGRAMMING LANGUAGES: JavaScript, HTML, CSS, Python, Java

DATABASE: MongoDB, SQL

FRAMEWORKS & Libraries : React.js, Next.js, Bootstrap, Tailwind CSS, Node.js, Express.js

OTHER TOOLS & SKILLS: Git, GitHub, VS Code, Vercel, MS Excel, JWT, OAuth, RESTful APIs, Data Structures, Problem Solving

CORE SKILLS

- Problem Solving
- Analytical Thinking
- Communication Skills
- Team Collaboration
- Time Management
- Adaptability
- Critical Thinking
- Quick Learning

EXPERIENCE

Full Stack Web Development Intern

Devplex Technologies Pvt. Ltd. | Bengaluru, Karnataka

March 2026 – May 2026

PROJECT

ZenVest – Personal Finance & Investment Platform  

- Engineered a full-stack personal finance management application with a responsive and intuitive interface.
- Created a secure backend using Python (FastAPI) with JWT authentication and RESTful APIs.
- Introduced features including user registration, login, dashboard, transaction tracking, budgeting, savings goals, and financial alerts.
- Crafted responsive frontend components using React.js and Tailwind CSS.
- Utilized SQLite database for data storage and complete CRUD operations.
- Validated application functionality through testing and production deployment.

Water Can Delivery System  

- Designed a full-stack web application for online 20L water can booking and doorstep delivery.
- Constructed responsive interfaces for customer registration, product browsing, cart, and checkout.
- Configured secure authentication and profile management.
- Established order management, delivery scheduling, and order history modules.
- Connected Firebase with the application for real-time data synchronization.
- Published the project on Vercel for online accessibility.

Color Memory Challenge Game  

- Built an interactive browser-based game using React.js.
- Implemented dynamic color pattern recognition to drive gameplay logic.
- Integrated a scoring system to monitor player performance.
- Incorporated sound effects and visual feedback for an engaging gaming experience.
- Optimized the interface to ensure responsive and smooth gameplay across devices.

EDUCATION

Bachelor of Computer Applications (BCA) - Data Science

Akash Global College of Management & Science

Bangalore, Karnataka, India

2023 – 2026

CGPA : 7.49

LANGUAGES

- ENGLISH (Fluent)
- HINDI (Fluent)
- KANNADA (Basic)

ADDITIONAL INFORMATION

- Knowledge of data analysis using Python
- Familiar with data cleaning, processing and transformation
- Understanding of data visualization techniques
- Experience working with datasets and structured data
- Knowledge of data analysis libraries and tools
